| Status: A        |                  |             | A portion of seats reserved for students in Freshman Learning Communities. A limited number of non-reserved seats available in this section. This section is for students w ho need preparation to take Math 2211 Calculus of One Variable I. It is recommended for Math, Computer Science, Physics, or Actuarial Science majors. It is NOT recommended for Biology, Chemistry, Neuroscience, and Psychology majors, for w hom the preferred calculus course is Math 2201 Calculus for Life Sciences I. Breakout is one hour recitation. |      |              |             |             |     |                     |   |      |                     |     |      |       |      |      |            |                       |                  |                       |        |                  |                  |

| Status: A        |                  |                  |             |      |                                      |                                      |                       |                       |                     |              |                     |   | A portion of seats reserved for students in Freshman Learning Communities. A limited number of non-reserved seats available in this section. This section is for students w ho need preparation to take Math 2211 Calculus of One Variable I. It is recommended for Math, Computer Science, Physics, or Actuarial Science majors. It is NOT recommended for Biology, Chemistry, Neuroscience, and Psychology majors, for w hom the preferred calculus course is Math 2201 Calculus for Life Sciences I. Breakout is one hour recitation. |      |                   |              |     |            |                       |                  |                       |                     |                 |  |    | GT |     |  |  |  |

|                  |                  |                  | Introduction to Mathematical Neuroscience. Students will review basic mathematical concepts used in neuroscience. Students will then use Matlab to apply these mathematical concepts to understand and model neurons and simple neural circuits. No previous Matlab programming experience is necessary. |      |             |                              |           |                                 |                                 |                       |              |                  |                     |               |      |                      |              |                                      |                  |                       |            |                             |  |  |
